YTD call volume is 14.37% higher than the same period in 2016.</p> <p>CWIFR experienced 17 instances in which multiple calls for emergency service were received concurrently (total of 42 incidents). Five occurrences involved three calls, and one occurrence involved five calls. Reports on incident types and frequency and occurrence of concurrent calls are attached.</p> <p>Average response time during the month was 9 minutes and 01 second. In this same time period, the 90th Percentile response time was 13 minutes and 40 seconds. This is the first month that we have included first unit response times for WhidbeyHealth EMS and our auto aid partners. The 90th percentile response time for May showed a 13.42% improvement over the 90th percentile response time for 2016. However, this is an extremely small sample and we continue to improve the quality of our response time data.</p>
