Payroll controls

During our review of payroll records for 2012-2014, we examined records for five employees totaling 201 timesheets. Our review ensured that timesheets were signed by the employee and properly authorized by supervisors or the Board, to ensure timecodes charged were accurately tracked. We identified 20 timesheets that did not have documented evidence of review by some combination of employee, supervisor or Board member.

We recommend the District establish controls to ensure there is documented evidence that all timesheets are signed and reviewed by supervisors or a Board member to ensure time charged is accurate and allowable.
